

701 Research Inc. supports safe and secure lifestyles.

Philosophy

Supporting Product Development and Advancement

701 Research Inc. is a company that supports clinical tests to promote safe and secure lifestyles. We provide consultation, conduct various tests, provide home-use tests, monitoring, laboratory rental, recruit participants and dispatch trained expert in order to meet the diverse needs of our clients.

We will continue to strive for a better future for everyone with trust and achievement built up by our staff.

Business and Strength

POINT
01

Providing a wide range of support

Employ the most appropriate participants for the test. Properly manage the clinical test. For example, we make sure that the participants are using the test product correctly and do not deviate from the test conditions during the test period. We meet your expectations as much as possible, even under tight timelines.

POINT
02

Partnering with world-class companies for a variety of tests

We are affiliated with SGS North America, Inc. Please contact us about conducting your clinical test.

POINT
03

Assistance in conducting Institutional Review Board

We will prepare the necessary such as the test plan and informed consent form, and handle the application procedures. We will also introduce you to the IRB best suited for your clinical test from the many IRBs with which we are associated.
